ABOUT

Aspiring AI Engineer and Full Stack Developer with a focus on integrating **Generative AI** and **Large Language Models** into scalable web architectures. Expert at building responsive UIs in **Next.js** and bridging the gap between sophisticated machine learning models and user-centric applications. Passionate about **RAG (Retrieval-Augmented Generation)**, prompt engineering, and optimizing model inference. A collaborative problem-solver committed to developing intelligent, data-driven solutions that solve complex real-world challenges.

EDUCATION

JNTU-GV

Bachelor of Technology, Computer Science & Engineering

Vijayanagaram, Andhra Pradesh

Jan. 2021 – April 2024

TECHNICAL SKILLS

Languages: C, Python, JavaScript, Go

Frameworks & Libraries: React.js, Next.js, Electron.js, Node.js, FastAPI, Vercel AI SDK, LangChain.js

Developer Tools: Vite+, Turborepo, Docker, k9s, MCP (Servers & Clients), Ollama, Git

UI Frameworks & Styling: Tailwind CSS, shadcn UI

Databases: MySQL, PostgreSQL, MongoDB, VectorDB (ChromaDB, LanceDB)

EXPERIENCE

SDE-I

DeeptaAI

Aug 2025 – Present

Hyderabad, India

- Architected scalable Chatbot and Form SDKs using Turborepo for cross-platform university integration.
- Engineered academic infrastructure modules to manage complex program and course hierarchies.
- Implemented secure multi-channel payment systems for self-funded and loan-based transactions.
- Developed automated post-exam workflows for high-concurrency results and re-correction logic.

Associate SDE

Apxor

Dec 2024 – July 2025

Hyderabad, India

- Built a Gen-AI chatbot translating natural language to Clickhouse SQL for automated data visualization.
- Led frontend development for high-traffic platforms, optimizing performance and user retention.

Full Stack Web Developer

IncrivelSoft, Inc

Feb 2024 – Aug 2024

Hyderabad, India

- Co-led the frontend team in delivering responsive MERN stack interfaces and high-fidelity UI components.
- Integrated complex UI with backend APIs to ensure data integrity and seamless end-to-end UX.

PROJECTS

Synapse | *Electron.js, React, LanceDB, Ollama, Langchain.js, AI SDK*

- Developed a **Local AI enhanced PDF viewer** (Desktop Application) with Langchain.js Lib integrated with AI SDK.
- Enhanced built-in AI tools such as automatic page redirection, Inline AI Ask and AI search.
- Used React PDF Viewer Library for simple PDF out of the box utilities. LanceDB for storing generated embeddings for quick and easy context retrieval.

Support AI Chatbot | *React, MonogDB, AI SDK*

- **RAG driven Chat Bot Widget** (NPM package and script) offering configurable system prompts and pluggable toolsets tailored for a specific organization enterprise.
